**Subject** – Vibration Training – Category II

**Date** – October 2<sup>nd</sup> – 6<sup>th</sup> 2017 - **Location** – Holiday Inn – Truro, NS

Flowstar Industrial Inc. is pleased to offer a vibration Category II course; all course material will be in accordance with ISO 18436-2 standards. Students will write their exam on Friday afternoon October 6<sup>th</sup>/17. Due to the rising costs to offer our vibration courses, we have determined that a minimum number of students must be enrolled in the courses to make them feasible. In our Vib 2 level course we will need a minimum of 8 students, so please consider registering early. Flowstar Industrial will also make all hotel reservations if requested, please contact our office @ 902-896-0051 or email [phil@flowstarind.ca](mailto:phil@flowstarind.ca) . Deadline for registration is September 1<sup>st</sup> 2017, after this we cannot guarantee we can get an exam for the student.

### Category II – Course

**Instructor – Ken Keith, Cat III certified**

Ken is a Mechanical Technician and Journeyman Millwright with 16 years' experience as a vibration specialist. Ken is currently holding a Cat III certification with both CMVA and the Vibration Institute. Ken has worked with Jack Peters on the last Cat II course and will be using the same material.

### Category II course outline

This course prepares attendees to perform basic machinery vibration analysis on industrial machinery using single-channel measurements, with or without triggers signals, according to established and recognized procedures, It covers basics of sensors, database and data collector setup, data collection, signal processing, fault analysis, and basics of single plane balancing. It is partial preparation for the Vibration Analyst Category II Certification Exam. The workshops and demonstrations, scheduled throughout the training course, are used to illustrate theory and applications.
